**PORTFOLIO BUILDING WORKSHOP**

Celebrity hairstylist and makeup artist Susan Lipson and internationally acclaimed photographer Joaquin Palacin have joined forces in a first of its kind workshop: building portfolios that showcase the artistry top agencies seek out.

This workshop offers artists the opportunity to work in a professional environment with all the necessary elements to create tear sheet quality prints found in magazines such as Vogue, In Style, Elle...

This workshop provides a structured system where a team of artists (hair, makeup, stylist, model) meet with Susan and Joaquin, one-on-one. A theme is chosen and four looks are developed for one model. There are five teams that collaborate together to design their looks within the theme developed at the initial meeting. Categories within the theme include: Clean, Beauty, Fashion, Avant-Guard

Monthly workshops offer you the opportunity to build on your portfolio with each workshop resulting in four prints professionally touched for your portfolio.

*If you are serious about your career and ready to move forward we can help you.*

## About **Susan Lipson**

Over 20 years of experience in the hair industry has earned Susan Lipson her reputation as an expert Hairdresser, Make-up Artist, Extension Artist, and Hair Colorist. Her work in the film and television industries has given her the chance to express her creative mind while transforming actors into believable characters. She uses this approach with customers who are yearning for a brand new look. A wide range of celebrities such as Drew Barrymore, Kirsten Dunst, Cristina Applegate, and Kate Beckinsale have chosen Susan as their Extension Expert/Colorist after appreciating first hand how she is a master of her craft behind the scenes.
